MAN
FOOTWEAR

EU	UK	US	FOOT LENGHT (cms)
39	6	7	25
40	6,5	7,5	25,5
41	7	8	26
42	8	9	27
43	9	10	27,5
44	10	11	28,5
45	10,5	11,5	29
46	11,5	12,5	30

To take the following measurements (in cm) you need a tape measure.
This sizing is based on the exact foot measurements.

FOOT

To determine your shoe size, you should measure your foot from the back of your heel to the tip of your big toe. The easiest way to do this is by drawing a straight line on a piece of paper and marking the end of your big toe and the end of your heel on the line, then measure the distance between the two marks. Do this for both feet, as they can often be different sizes. If so, you should always pick a shoe which fits your biggest foot to avoid pinching.

MEASURE INFORMATION

Size and fit may change depending on the model and shape.

	38	5	6	24,5
	39	6	7	25

Find Your Kids' Sizes

This is going to work best if they don't wiggle. Yeah, right, who are we kidding? Place your child's heel along the solid line at the base of the chart. Have your child put his or her weight on the foot being measured and make sure all toes are relaxed. The line that touches the longest toe indicates the correct size. The shorter lines in between indicate half sizes. Since one foot is often larger than the other, make sure you measure both feet. You should purchase the size that fits the largest foot.
